

SOLVAY SUMMER SCHOOL PROGRAMME

European Business Challenges

August 11th - 20th - 2023

In partnership with:

SOLVAY SUMMER SCHOOL - A UNIQUE LEARNING EXPERIENCE

Challenge yourself with internationally well-known professors and through business cases with renowned companies. Expand your international network while getting to know the Belgian culture! Experience a summer programme made by students for students!

SOLVAY BRUSSELS SCHOOL OF ECONOMICS AND MANAGEMENT

The Solvay Brussels School continuously extends its international network with more than **140 partner universities** in more than 40 countries worldwide. The faculty is **ranked first** among all Belgian Business Schools for its Management Science Master programme. Our alumni are renowned in a broad range of career fields.

BRUSSELS - IN THE HEART OF EUROPE

Brussels is an incredibly **cosmopolitan environment**. The city hosts both **NATO** and **the EU headquarters**. It is an important European base for thousands of international companies with a population of more than 300,000 expats.

Our main courses provide a broad overview of the **European business environment** with an emphasis on **performance management** and **geopolitical concerns**. The Solvay Summer School provides a certificate of **3 ECTS credits** to those who attend 85% of the **20 hours of seminars** and pass the final examination.

Our participants will have the opportunity to choose a tailored option:

Entrepreneurship and Innovation

The Entrepreneurship programme aims to equip students who embrace the entrepreneurial mindset with perspectives on management practices and leadership.

Public policies

Today's institutions need decision-makers with interdisciplinary knowledge who are capable of understanding and solving complex managerial, economic and legal problems (public intervention, social behaviors and market dynamics).

Finance

Understand the impact of decisions on the financial health of professional activities. Quantitative methods and analytical skills will enable you to become an expert in financial portfolio management.

Business Law

The programme focuses on gaining a global understanding of the challenges faced by the European Union in the 21st century with a legal perspective on international relations, geopolitical policies and innovation law.

CHALLENGES

Staying competitive is a real concern businesses deal with on a daily basis, and it is not different in a simulated business environment. This is why our Business Challenges offer a **comprehensive glimpse into the multifaceted business world !**

The purpose is to encourage initiatives while fostering creativity and thinking outside the box, in order to **solve real case studies** and finally **pitch** the solution to our partner enterprises.

Our management simulations have the potential to significantly optimise the use of individual's skills with a **fun and concrete approach**. We equip our participants with the ability to **emulate what many great CEOs have done before** to create the innovations we use today !
